

**THE CTC
OPERATIONAL ENVIRONMENT
FOCUSED ON DESIRED
TRAINING OUTCOMES**

AN ASSESSMENT STRATEGY

WHY CTC OE ASSESSMENTS MUST EVOLVE

Transforming the Army at large...

- Increased readiness in full spectrum joint operations
- ▢ Changed leader training paradigm
- ▢ Operate along continuum of legacy-interim-objective forces

...combined with changes at the CTCs...

- ▢ Explicit definition of OE variables, levels of complexity, impact on OE replication
- ▢ OPFOR changing from threat-based to desired training outcomes-based

...results in increased complexity of CTC rotations

- ▢ Holistic look at rotation planning, resourcing and execution
- ▢ Expands feedback mechanism to institutional and operational forces
- ▢ Addresses Legacy, Interim, and Objective Forces

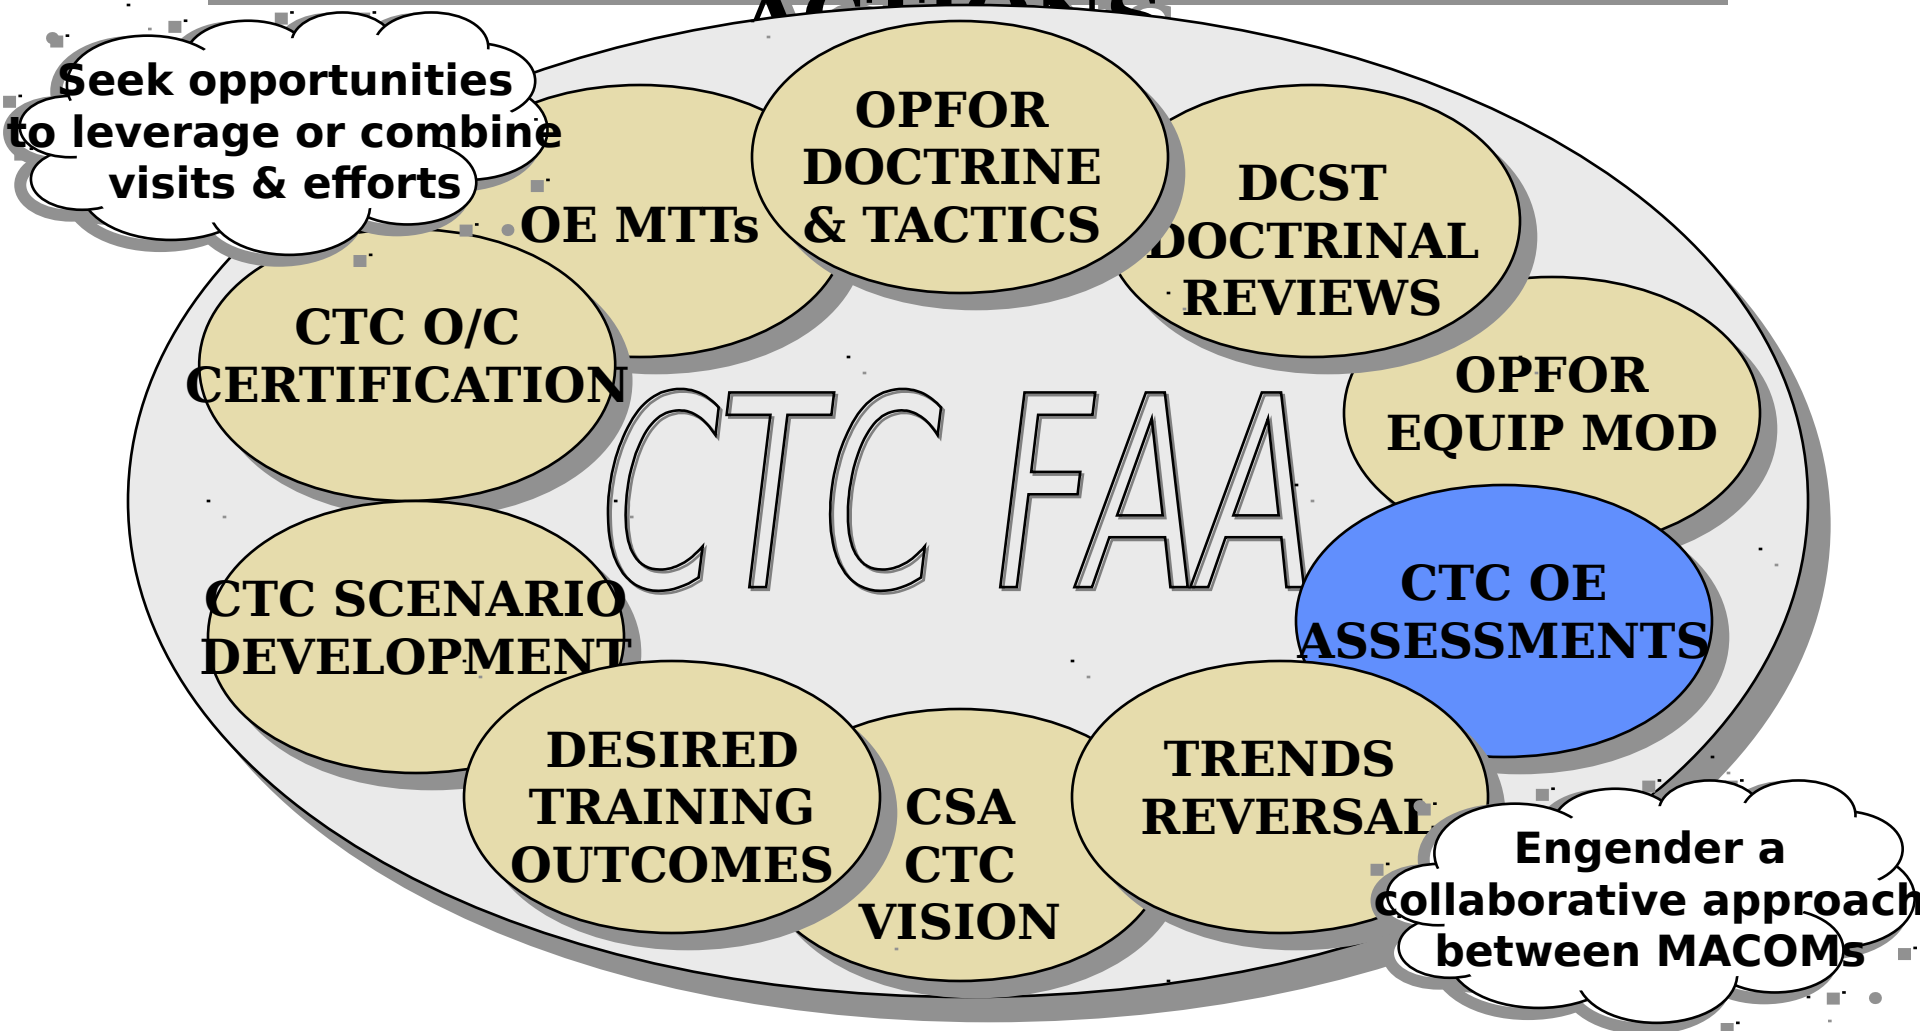

WHAT WE WANT THESE ASSESSMENTS TO ACCOMPLISH

- **Maintain CTC currency & relevancy**
- **Collect information and data during CTC rotations to inform and adjust training, doctrine, and organizational design**
- **Adjust CTC program to account for differing force designs (Legacy...Interim...Objective)**
- **Ensure CTC program supports dynamic changes to the threat/OE**

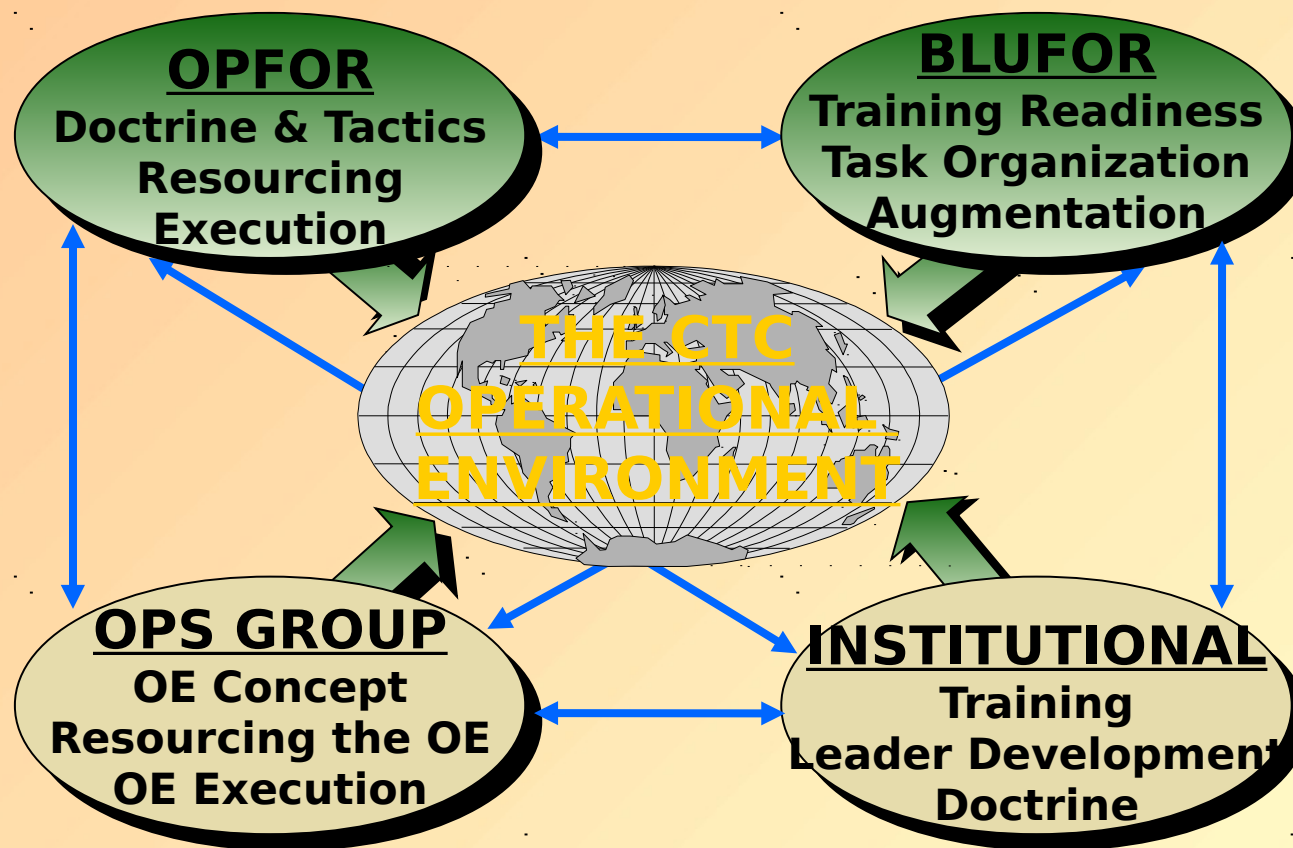

ASSESSMENTS WILL COMPLEMENT ONGOING CTC

ACTIONS

MINING THE ASSESSMENTS

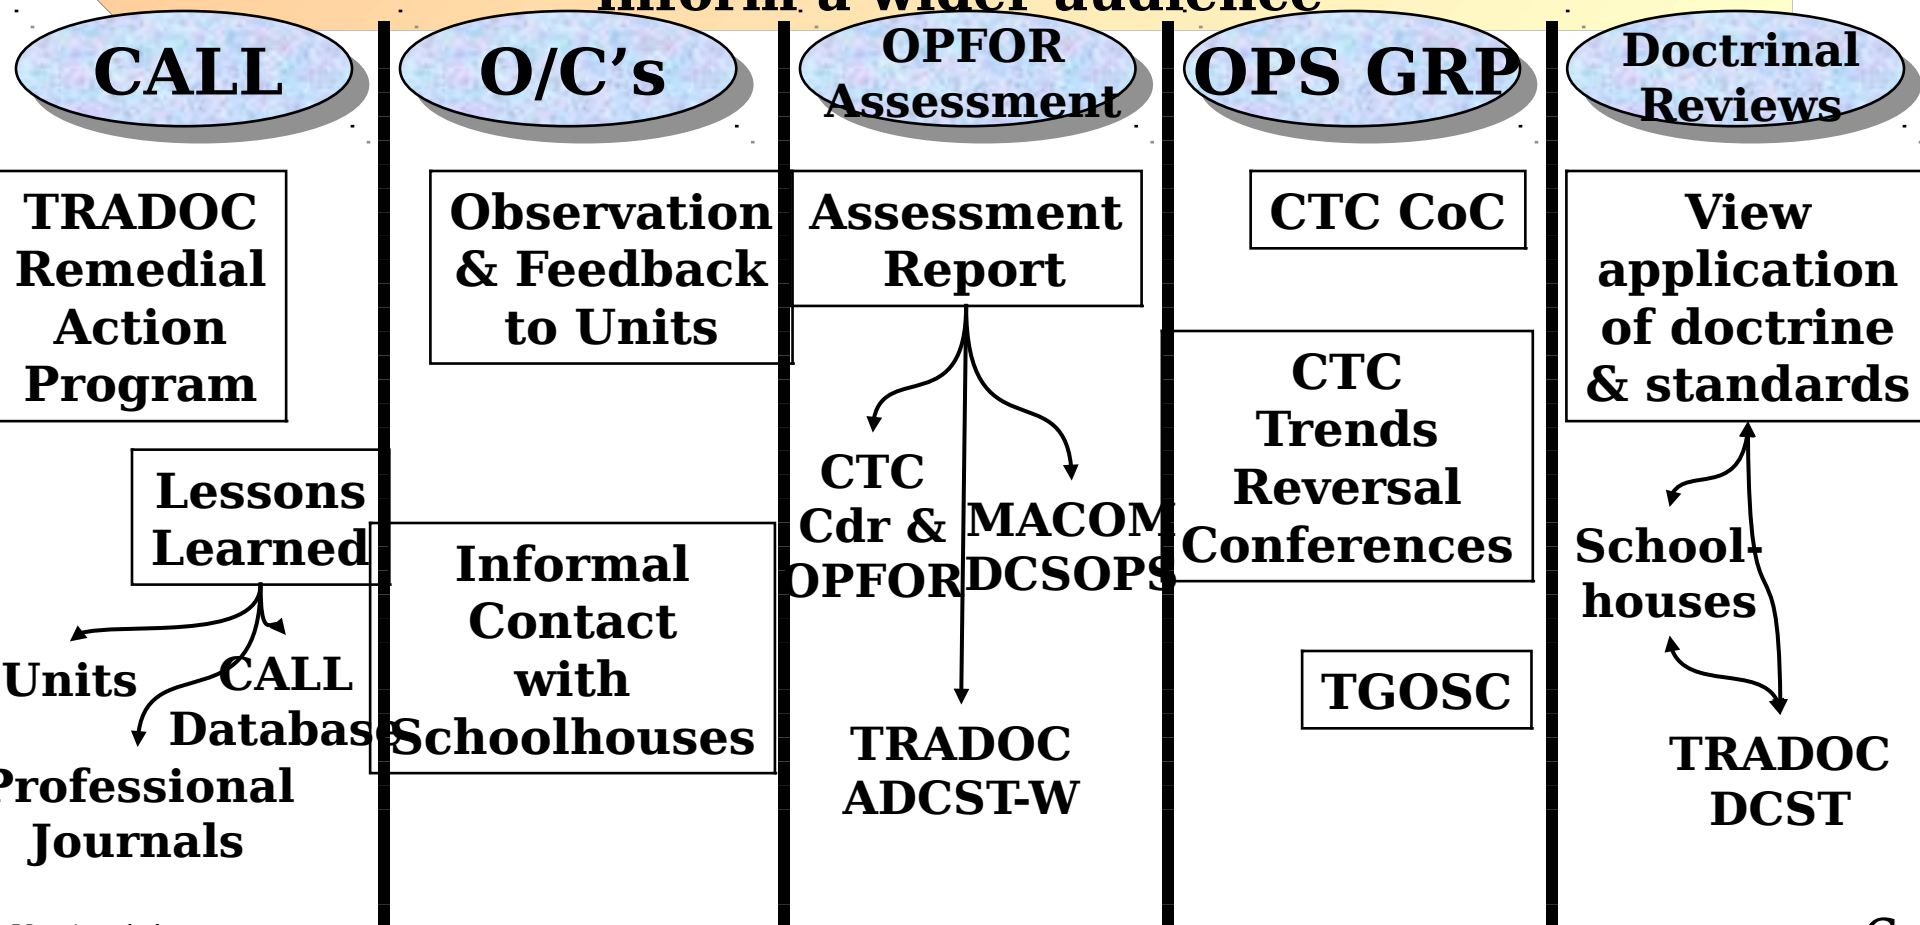

Desired Training Outcomes

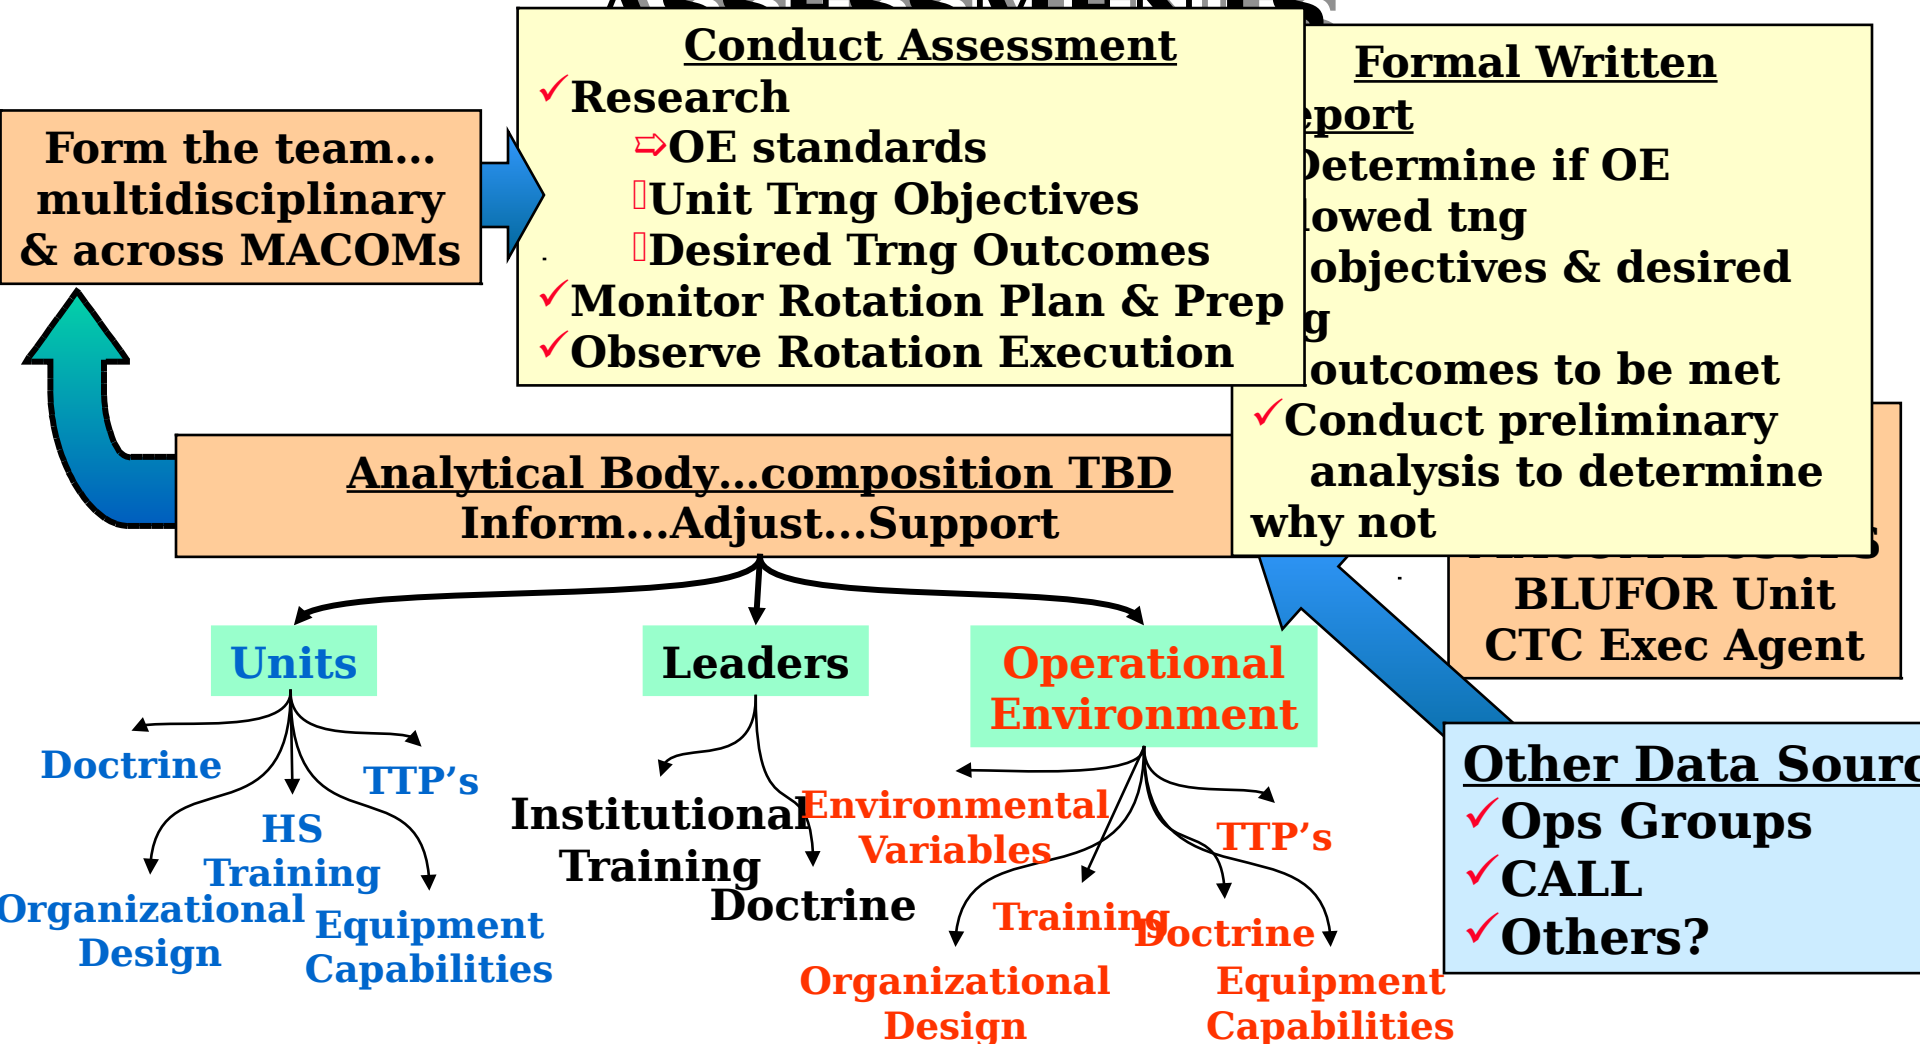

WHERE WE ARE TODAY

Plenty of great vertical processes, but little formal horizontal actions to determine broader impacts and inform a wider audience

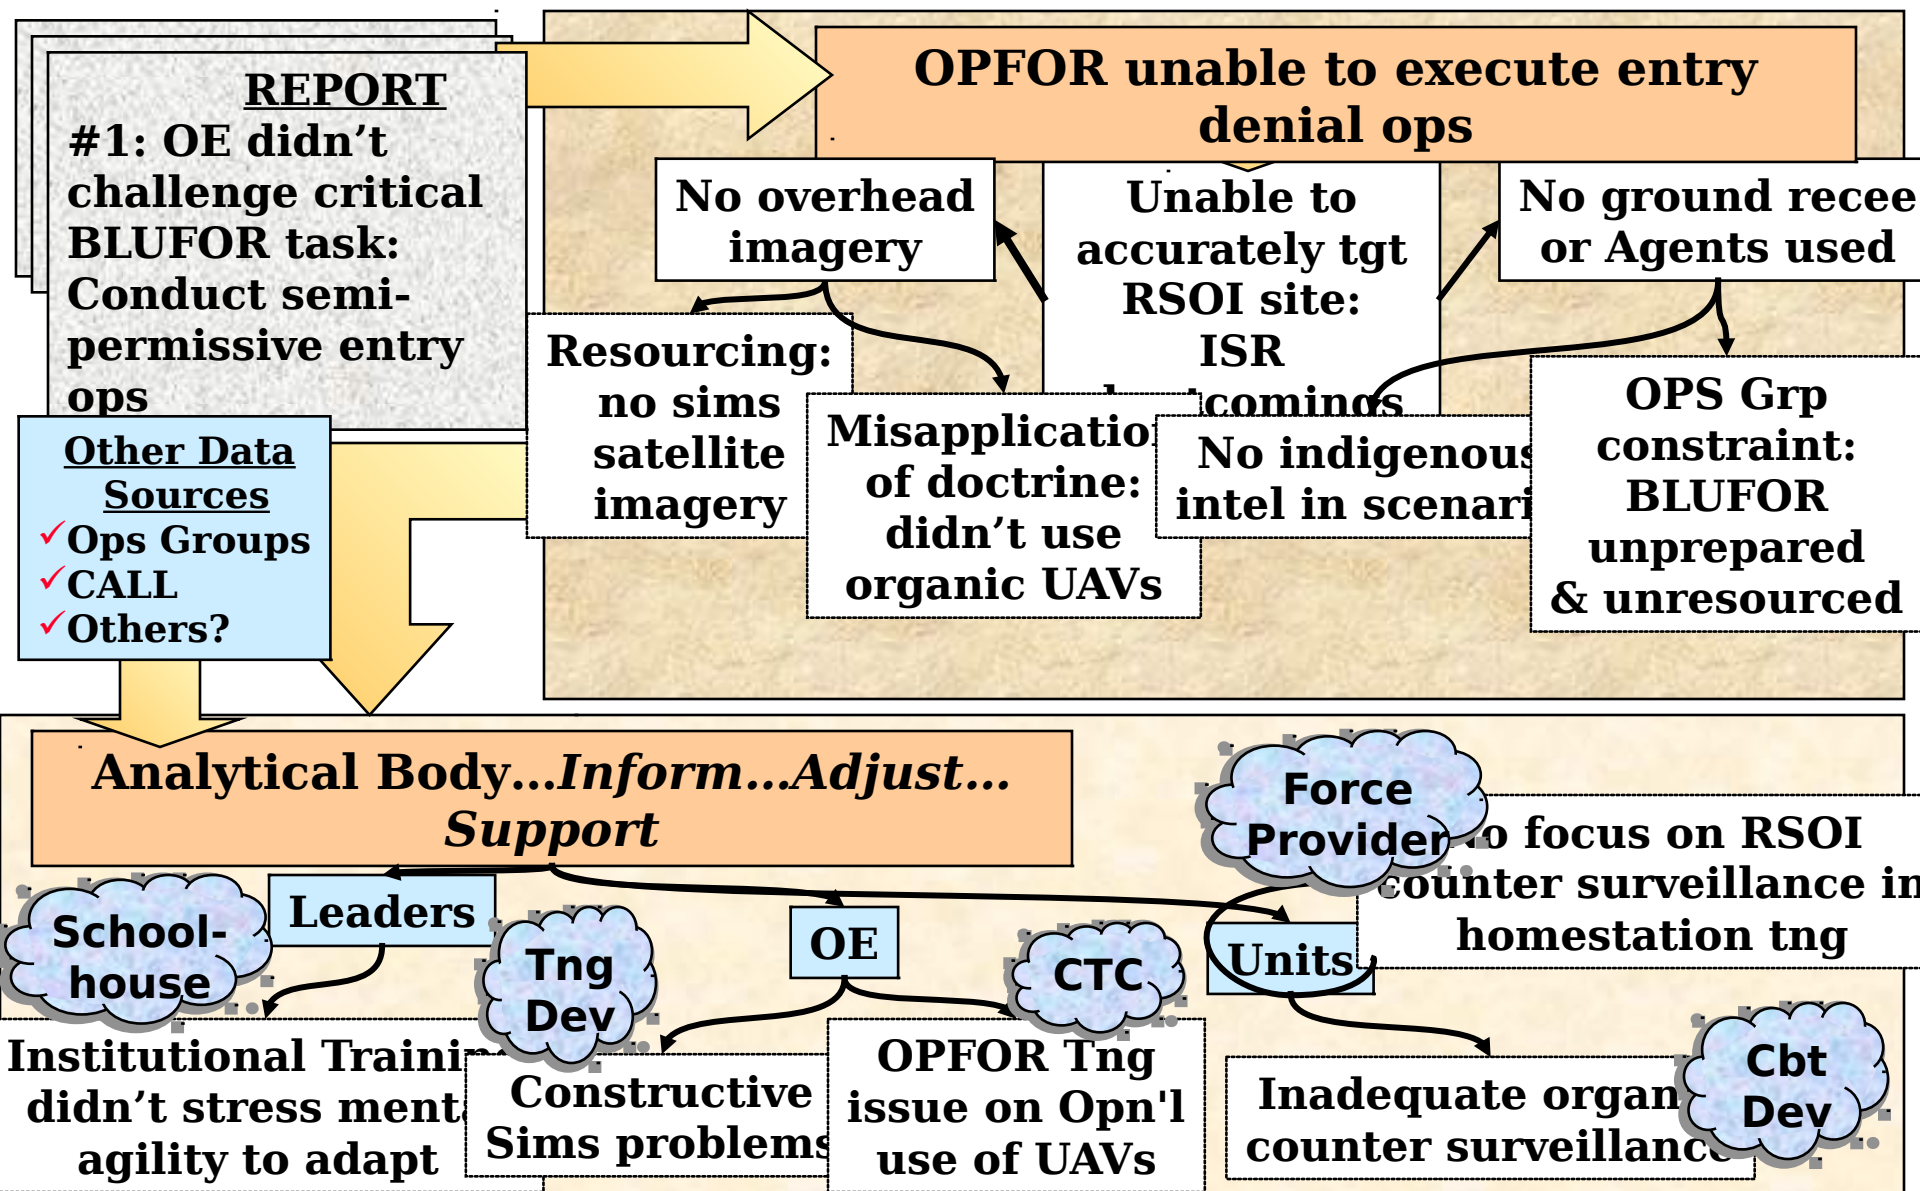

MAXIMIZING THE ASSESSMENTS

Result: Targeted institutional feedback across The

AN ASSESSMENT IN ACTION

WHAT CHANGES?

- ✓ **Assessment focus shifts from OPFOR-centric to encompass entire operational environment, focussing on effectiveness of replicated OE in creating the conditions to achieve desired training outcomes**
- ✓ **Assessment process expands in breadth to include all aspects of OE execution, including OE components of OPFOR Academies, LTP & OC Certification**
- ✓ **Depth added to assessment process by capturing entire rotational planning cycle starting at the D-180 conference for assessed rotations and following thru all subsequent actions and execution**
- ✓ **Expanded use of validation visit results...**
 - ⇒ **Validating current relevancy...*Legacy Force***
 - ▢ **Providing feedback for incremental change...*Interim Force***
 - ▢ **Feeding future constructs...*Objective Force***
- ✓ **Composition of assessment team evolves from Intel-pure to Intel-Training mix & broadens outside of TRADOC**

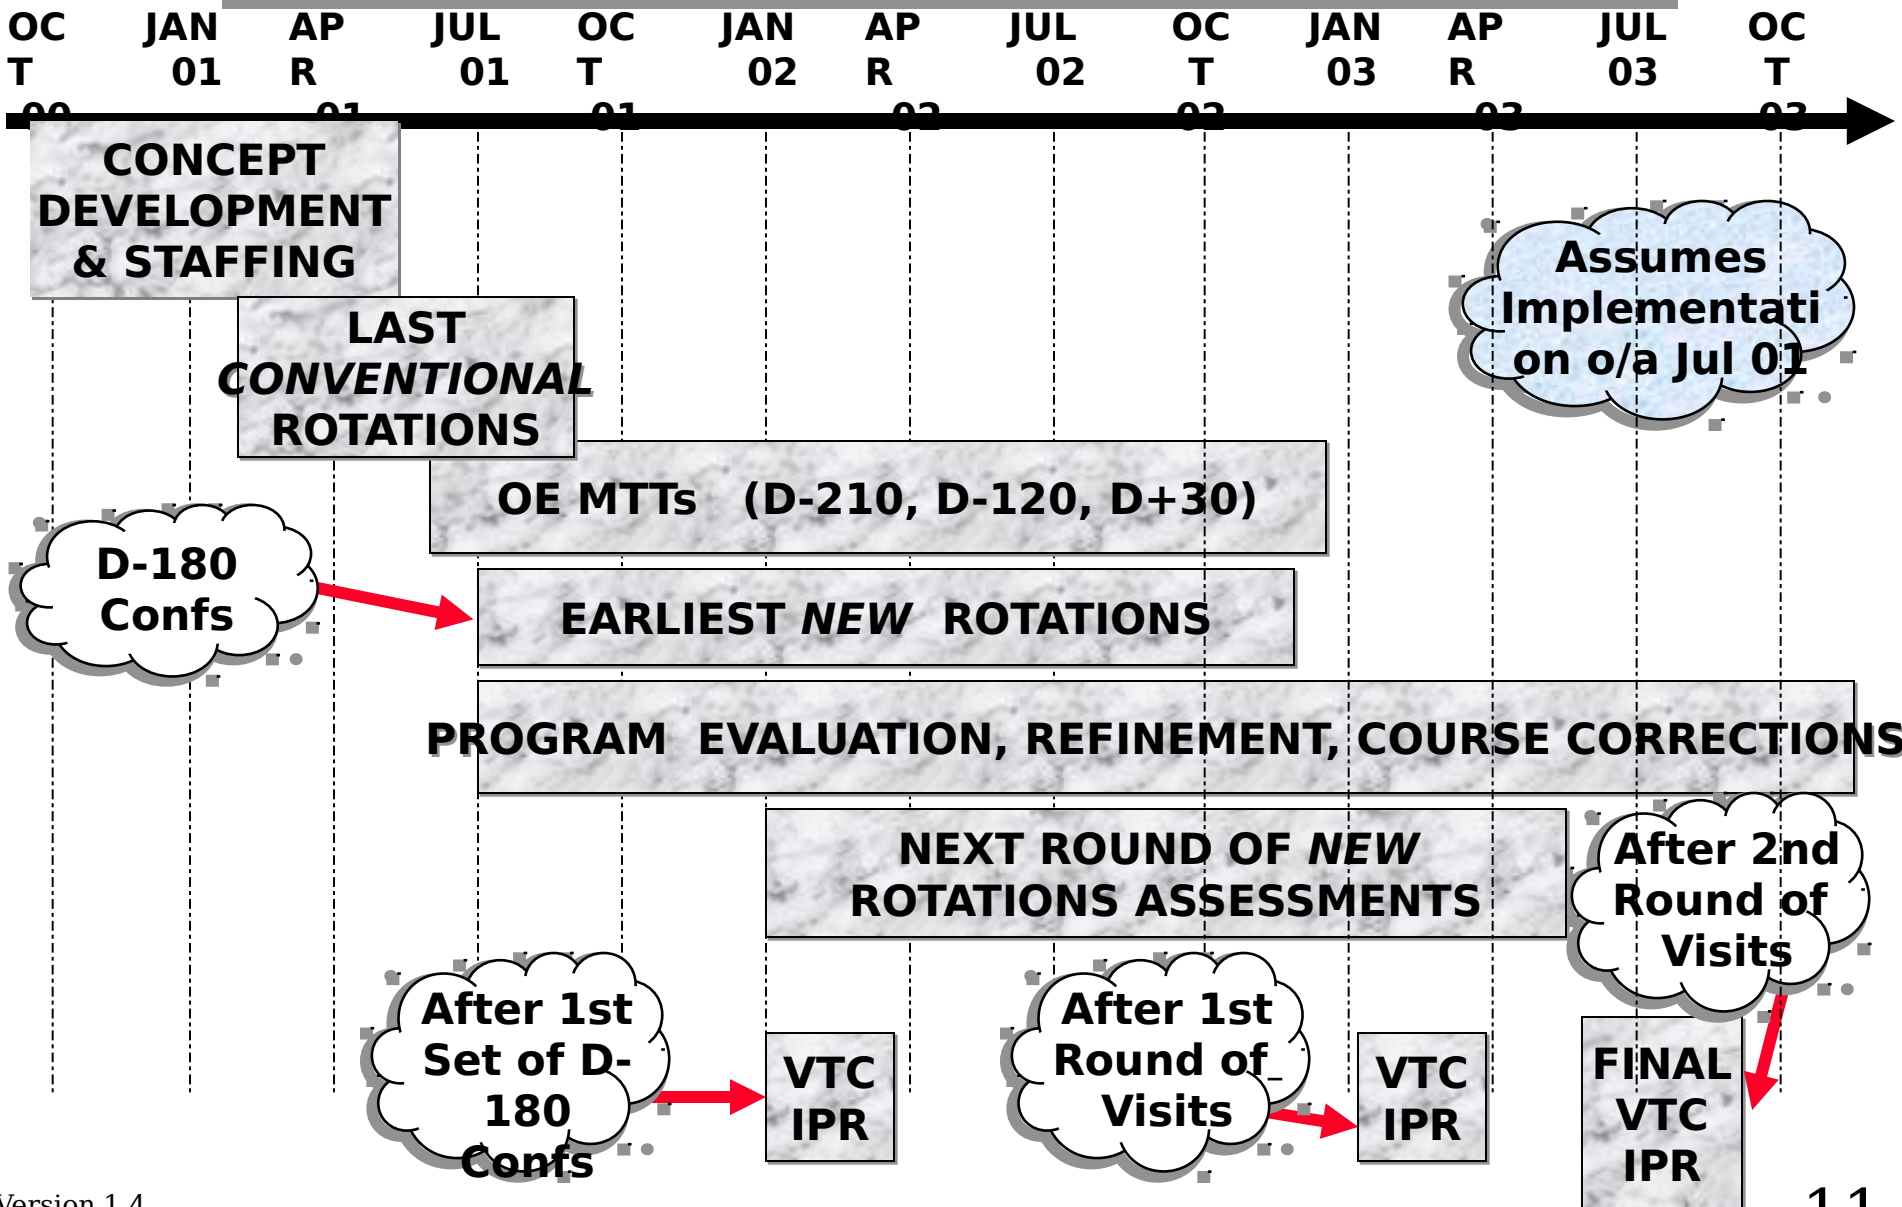

PROPOSED IMPLEMENTATION

- **BCTP 5-9 Nov 01 (02-03: 25 ID)**
W-180 Conference (Jul 01)
- **JRTC 8-19 Feb 02 (02-04: 3/101 AASLT)**
D-180 Conference (Aug 01)
- **CMTC TBD (Apr-Jun 02) (02-06: 1/1 AD)**
D-180 Conference (TBD, Oct-Dec 01)
- **NTC 25 Aug - 7 Sep 02 (02-10: 3/1 CD)**
D-180 Conference (Feb 02)
- **BCBST 2-4 Nov 02 (02-01: 92nd Bde)**
IPC (Nov 01)

PROPOSED TIMELINE

OUTCOME

Results in a continuous, holistic assessment of the CTC Operational Environment...

...nested in Army Transformation...

...integrating training requirements and OE variables...

...that facilitates institutionalizing dynamism in Army training and operations...

...as the Army transforms into a learning-based organization.

MILESTONES

- ✓ **Obtain DCSINT, TRADOC COA decision**
- ✓ **Gain DCST, TRADOC concurrence**
- ❑ **Info brief Chief of Staff, TRADOC**
- ❑ **Decision brief CG, CAC**
- ❑ **Gain CG, TRADOC concurrence**
- ❑ **Info brief FORSCOM, USAREUR & CTCs**
- ❑ **Implement NET Jul 01 in D-180 Conferences**
